**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I work from home (as a consultant) so efficient, affordable and reliable internet connectivity is my lifeline. In San Francisco, that means contracting with Sonic company to provide internet access. The "big" players in this market (ATT, Comcast) are terrible! I speak from experience as I've worked with ATT in the past. The connections they provide, based on experience, are unreliable. Their customer service is terrible and the cost is way too high. Consumers deserve a choice and we expect you, the FCC, to provide a level playing field for choice to exist. Remember, you work for the citizens/consumers of the US, not the White House or lobbyists.

Thank you.
